

INTERIOR CARE  
AND TREATMENT

**ProTech**<sup>®</sup>  
MONTE-CARLO

For a healthy  
and protected  
interior

LEATHER  
PLASTICS  
VINYL  
FABRIC  
CARPET

The surfaces of your interior are used every day. The occupants, the daily accidents, but also solar rays and heat or simply the time, are all factors which lead to an accelerated aging of the materials. Tarnishing plastics, colorless fabrics, cracking leathers... The replacement of these surfaces is a complex and expensive operation that can be prevented.

With the ProTech® Monte Carlo Interior Treatment, you'll be guaranteed to slow down aging, improve stain resistance and keep your interior as new, for a long time.

Depending on the surface, our experts will apply the appropriate treatments to ensure the best protection against premature aging and protect against aggression.

If it remains a material of character, the **LEATHER** is also a delicate surface to maintain. We clean them gently with a neutral pH balm, before applying our nourishing care. It penetrates the skin deeply while letting it breathe, thus avoiding any risk of subsequent hardening and cracking.

Each application starts with a **BACTERICIDAL DECONTAMINATION** of the surfaces guaranteeing a healthy interior, free of any pollution.

On **CARPETS AND FABRIC SURFACES**, we apply our exclusive anti-stain formula. It coats the fibers of the fabric with a resistant film, which avoids many permanent stains and delays their appearance in the event of an accidental spill.

Our decontamination solution **KILLS 99,99% OF BACTERIA** in less than 5 minutes. Its effectiveness has been tested by an independent laboratory according to NF EN 1276 standard.

The **PLASTICS AND VINYL** on the dashboard, the doors and other elements are very sensitive to the sun and time. The anti-UV and nourishing characteristics of our vinyl protector durably protect these surfaces from sun, heat and tarnishing.

## INTERIOR CARE AND TREATMENT

### For a healthy and protected interior

After the interior treatment, we give you a kit with your certificate of authenticity and its warranty number, as well as a cleaning pack designed to maintain each surface of your cabin.

#### **GUARANTEE**

- ▶ 2 year warranty\* against tarnishing and loss of color for carpets, skylights, fabric seats
- ▶ 2 year warranty\* against cracking, tarnishing, loss of color for leather surfaces
- ▶ 2 year warranty\* against tarnishing, color loss for vinyl and plastic surfaces

The anti-stain treatment should ideally be repeated every year for the most stressed areas (seats, backs, carpet, etc.).

Your ProTech® Monte-Carlo advisor will offer you the best conditions to renew this application if necessary.

*\*New surfaces, maintained according to our recommendations.*
